Reference: Addendum to Etowah Residential Traffic Impact Analysis

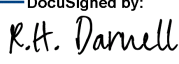

Dear Mr. Hartland,

The first item listed under NCDOT mitigation requirements for the US 64 (Brevard Road) / SR 1488 (Brickyard Road) intersection should read:

US 64 EB – add a 12' left turn lane with 100' of storage, 200' deceleration length and 150' taper.

Please update your records. Apologies for the error.

Sincerely
